Rehearsing for Recital 2025

We sincerely appreciate our parents' support in encouraging practice and stretching at home. Each class has its own music on the **Band** app. Please ask your instructor for the specific **Band** page name.

The more students practice outside of class, the more productive their lessons will be—and the more confident and successful they will become as dancers. If you believe your dancer would benefit from a video of the routine, please check your instructors band page and connect with your instructor.

Happy practicing!

Your friends in dance education,
Wade and Jessica Short
